AN UNUSUAL BOOK—

G. I. F. T.

Here is a new book that not every patriot will buy due to its price of \$25.00. It was written for the person who would like to have a full education of the Marxist plot in one book. It has taken years to produce. The price is not high when the size and contents are considered. It is the size of a telephone book, 787 pages.

Among the growing number of Christian patriots who are becoming aware that this politico-economic price system social structure is sinking into chaos, there are two groups who will appreciate this book. The first group is composed of those who are as yet uninformed concerning the Jew peril to Christian civilization. They do know however that something is wrong, and they are now beginning to desire to know what can be done about it. The second group is composed of those who are cognizant of the nihilistic source of the Talmudic price system, now degenerating into a frightening stage. This group is also anxious to know the solution to this dilemma.

Twenty-five years of study devoted to this problem has brought the author to the conclusion that Christians must now either accept the discipline of Christ, whose yoke is comfortable, and whose burden is light, or be enslaved under atheistic communism. The author has traced this ideological journey step by step so that the average person can accompany him every inch of the way. Anyone who reads this book will have the truth and the spirit of truth so deeply etched upon his mind that he will never again see events and ideas in the same light and frame of reference from which he formerly viewed them.

Voters for the Constitution

A recent Memorandum published in the Congressional Record of August 2, 1961, is truly shocking. Under the beguiling cover of reiterated assertions about the Constitutional principle of civilian superiority over the military, it attempts to discredit the professional officers of our Armed Service for their strong stand in support of the Constitution and their opposition to internal communistic subversion in the United States.

The same paper urges programs that could only result in further impairment of the sovereignty of our Country by progressive weakening through various socialistic and international undertakings.

An insidious attack on the officer corps and a clandestine assault on the very foundation of our system of government, what could be better calculated to silence our officers sworn to support and defend the Constitution against all enemies, foreign and domestic? The case of General Walker is but one example in what appears to be a pattern of organized intimidation to prevent our officers from alerting their commands and the public to the menace that they are sworn to oppose.

The silencing effect of that memorandum on the freedom of our officers to discharge their duty to speak, suggest that the hour is late. It also emphasizes the necessity for our sovereign people to protect themselves against further impairment of their system of government through valid enforcement of the Constitution.

With this objective, I urge the citizens in all states, in line with those of Texas and Virginia, to organize groups as Voters for the Constitution.

I urge also that these voter organizations undertake to retire from public office, both State and Federal, all those who have been unable or unwilling to initiate and enact measures to defend our People and the States from tyrannical usurpations and to replace them with those who can and will.

The resulting line up would be between (1) those who wish to maintain our liberties and freedom under the Constitution as was carefully provided for by the Founders and (2) those who accept or welcome Federal usurpation which aims at overthrowing the Constitution and establishment of autocratic rule.

In the final issue, which would be Constitutional Liberty vs. Centralist Slavery, the People of the United States, acting in their highest sovereign capacities through their legislatures, can and must restore the Constitution through valid measures for its enforcement.

READ AND PASS ON

I see I turn I feel RED, WHITE & BLUE

I SEE RED as I vision the precious blood of the countless innocent millions drenching the sacred soil of our dearly beloved United States in World War III.

I TURN WHITE even at the thought of surrender by the United States to the Soviet Union, defeated by them with atomic and hydrogen bombs made from secrets stolen from us for them by traitors in our government.

I FEEL BLUE as I meditate that this fate may too soon overtake us because the nation is too busy making money and having fun to listen to those who still can tell them how they can save their country from ruin.

Only an informed nation can know how to save itself from destruction.
